REMARKS

The property is located on the southeast side of the island of "IOS".

It consists of a rare and natural beauty area of total size 604.000m^2 , from which the 402.000m^2 have been permanently declassified by the Greek Forest Service as uncultivated fields.

The property is on the sea. It is adjacent to the sea with a coastline of 627.62 meters.

Includes two bays, which possess two dreamy beaches with crystal clear turquoise waters and thick golden sand. One of the beaches, has a coastline of 168,12 meters, the other of 131,78 meters and they are not accessible by third parties. These two bays are bounded by a bigger bay and this modification has as a result the water not to be ice-cold like other beaches of Cyclades islands.

In this bay there is the possibility of creating a wharf for mooring yachts.
